## PRODUCT DATA CONSUMABLES

### DURALLOY® HF 700

Duralloy HF 700 is a low Hydrogen type electrode for hard surfacing worn parts in Construction, Mining and Rural industries.

HF 700 has excellent abrasion resistance depositing an air hardening martensitic deposit.

Duralloy HF 700 is another special formulated Duralloy alloy designed for all types of abrasive wear with medium impact resistance. It is non-machinable.

#### TYPICAL HARDNESS OF DEPOSITED METAL

Hrc	Vickers	As Welded
56	624	Single Pass
56 - 60	624 - 690	Multi pass
